

1 This radio station has been able to help direct me to my church and local events that they sponsor.

2 If Air 1 interrupted to me this is going to be a problem with my struggle with every day problems the station give positive messages to the listeners and support.

3 To have a radio giving positive messages to the people is what this world needs, too many things are influenced by money and not what is right the motivation is to teach and share the right thing and choices to people, not sex drugs and hate.
